

## WIMBORNE PASSENGER SERVICES CARRIAGE DIAGRAMS

WEEKDAYS (NOT SATURDAYS), MONDAY 13<sup>th</sup> JUNE TO SUNDAY 11<sup>th</sup> SEPTEMBER 1960

The following carriage workings were mostly extracted from the BR(SR) Carriage Working Notice (Steam Trains) for the Southern and Western Districts, dated 13<sup>th</sup> June to 11<sup>th</sup> September 1960 (inclusive). Other sources are noted where relevant; e.g. in relation to pull-push working. Although BR was not using the 24-hour clock in 1960, I have done so.

I have included the entire diagram for any working on the Old Road/Salisbury & Dorset Junction, highlighting the Wimborne leg in italicized bold. Location descriptors use today's National Rail three-letter code, along with my own, largely self-explanatory, inventions where necessary:

BMW Bournemouth West  
SGE Swanage  
SOT Southampton Terminus  
WIM Wimborne

I have also used the [standard BR\(SR\) carriage descriptors](#), although it might be useful to know that ACV stands for 'Air Control Van' – the 'pram van' attached to some pull-push workings to provide additional accommodation for, mostly, the large children's prams of the era!

While the Wimborne & East Dorset Railways project reserves copyright in this compilation all non-commercial usage is licensed.
